

Minibox⁺

Basic and multifunction metal case, applications from little testing equipment to heavy-duty installations such as machine/motor controls or automated pass controls.

Easy and budget fitted drilling options, by programmable CNC punching machines.

Fifteen sizes from 55 to 4.400 cm³ internal volume.

Made entirely of 1 mm. thick aluminium, natural anodised finished, outer surface covered with removable transparent protective film.

Its aluminium construction eases EMI / RFI protection of equipments.

Two piece construction held together with self-tapping screws, except the smallest size (31040001), which lid and base snap together.

Finish: natural anodised with removable protective film.

Basic unit includes: base, cover and 4 self-tapping screws.

Optional:

- special dimensions.
- custom-special made drillings.
- silk screen.

Coffret multifonctions pour des applications depuis les petits montages dans des équipements de contrôle jusqu'à des installations robustes comme les commandes de machines ou de moteurs, et commandes de pas automatisés.

Facilité et économie d'usinage parce que fabriquées avec des machines CNC.

Quinze modèles avec des capacités de 55 à 4 400 cm³ de volume intérieur.

Fabrication totalement en aluminium de 1 mm, en anodisé naturel et protégée par film transparent amovible.

Sa construction en aluminium facilite la protection EMI / RFI des équipements.

Fixation de couvercle au moyen de vis autotaraudeuses, à l'exception de la taille la plus petite (31040001), fixée au moyen de clips à pression du couvercle et de la base.

Finitions: Finition anodisé naturel et film protecteur.

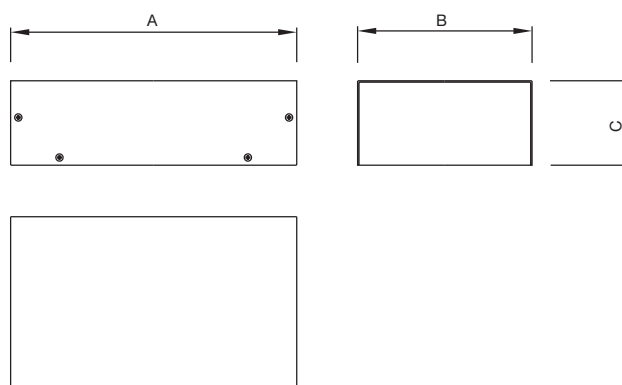

Chaque unité inclut: Couvercle, base, 4 vis autotaraudeuses.

Options :

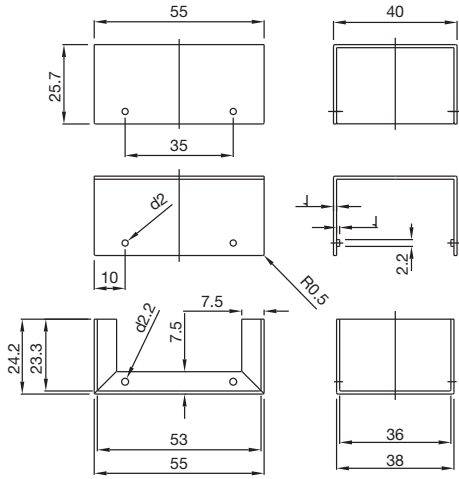

- Dimensions spéciales.
- Usinages spéciaux
- Sérigraphie.
